What is SPELLBEE?

A spelling bee is a competition in which contestants are asked to spell a broad selection of words, usually with a varying degree of difficulty. To compete, contestants must memorize the spellings of words as written in dictionaries, and recite them accordingly.

The concept is thought to have originated in the United States, and spelling bee events, along with variants, are now also held in some other countries around the world. Spelling bees are common only in countries where English is spoken, because other languages have a more predictable spelling system.

Keeping all these things in mind, we have prepared this book to help out all you hopefuls, both new and old, with your preparation, word lists, and everything you need to know about the competition you will be participating in.
